## Performance for the Office, Durability for the Road

Performance and durability come together in the GD6000 to create a notebook that is equally at home in the office and on the road.

Designed for mobile workforces, the GD6000 is the only notebook optimized for vehicle deployments. It meets fully-rugged standards for temperature, vibration, dust ingress and humidity. It can also survive punishing 30" drops and comes standard with a spill resistant keyboard, dual task lights and the industry's best 13.3" outdoor viewable touchscreen display featuring our *patent-pending* DynaVue® technology. And it has options for GPS, WWAN and a full function vehicle dock.

This best in class road durability does not come at the expense of office performance. The GD6000 is equipped with the Intel® Core™2 Duo T9400 processor, 1067 MHz FSB, 6MB L2 Cache, and up to 4GB of memory. An optional office dock, external keyboard, mouse and display make office work a breeze. For best in class durability, performance, and unparalleled outdoor viewability check out the GD6000 - it works where you work.
