BENEFITS

Transforms the F5 or C5 into a
full-featured desktop computing
and charging solution
Three viewing angles are
provided to support charging,
keyboarding and pen orientations
Supports standard USB 2.0
accessories
Simple, smooth design for ease
of cleaning
Small footprint accommodates
small spaces

The **Docking Station** transforms the F5 or the C5 into a full-featured desktop computing and charging solution. Three viewing angles are provided to support charging, keyboarding and pen orientations.

External ports support an external VGA display, RJ45 network connectivity and all your favorite USB accessories such as a full-size keyboard, mouse and printer.

The Docking Station also includes a charging bay to charge an additional battery which can be hot-swapped when the unit is docked.

Support for a universal lock slot is also provided for added security.
AC Power Pak included.

The sealed F5 is a rugged, highly mobile tablet PC providing electronic clipboard functionality that is the ideal productivity tool for field workers who compute and enter data while standing or walking.

The C5 Mobile Clinical Assistant is a hospital-grade device specifically designed for use by clinicians across healthcare environments. Its rugged, disinfectable design, superior ergonomics and integrated features provide improved productivity while supporting the “five rights” of patient care (right patient, right time, right medication, right dosage, right route).
