BENEFITS

Easily travel with the F5 or C5
with the comfortable shoulder
strap

Integrated easel for flat
surfaces for working or viewing

Simple zip-bottom to snap the
EasyConnect USB/Ethernet
Module on and off

The sealed F5 is a rugged, highly mobile tablet PC providing electronic clipboard functionality that is the ideal productivity tool for field workers who compute and enter data while standing or walking.

The C5 Mobile Clinical Assistant is a hospital-grade device specifically designed for use by clinicians across healthcare environments. Its rugged, disinfectable design, superior ergonomics and integrated features provide improved productivity while supporting the "five rights" of patient care (right patient, right time, right medication, right dosage, right route).

The Carry Sleeve for the Motion F5 and C5 allows users, who are in the field or on their feet all day, a comfortable and convenient way to transport and use the tablet PC. It provides extra protection for the tablet PC while giving you alternative carrying options with the shoulder strap.

The integrated easel also enables you to easily stand the C5 or F5 on flat surfaces for working or viewing.

The Carry Sleeve design also provides for an opening at the bottom which allows you to use the EasyConnect USB/Ethernet Module.
