

EasyConnect USB/Ethernet Module

MOTION TABLET PC

The EasyConnect USB/Ethernet Module easily connects to the Motion® F5 Tablet PC and the C5 Mobile Clinical Assistant

QUICK SPEC

- (1) USB 2.0 port
- (1) 10/100 Ethernet port
- Dock connector
- 1-year warranty

BENEFITS

Easily add a USB 2.0 port for additional equipment connectivity

Connect to a LAN with the added 10/100 Ethernet port

Attach the EasyConnect Module without sacrificing the durability and protection offered by the fully sealed, protective design of these rugged tablet PCs

The **EasyConnect USB/Ethernet Module** was developed for the Motion F5 Tablet PC and the C5 Mobile Clinical Assistant. This module enables users to add (1) USB 2.0 port and (1) 10/100 Ethernet port for additional connectivity without sacrificing the durability and protection of the fully sealed, protective design of the rugged tablet PCs.

The Motion EasyConnect USB/Ethernet Module is ideal for mobile PC users who need to connect additional equipment, diagnostic equipment and more to the rugged, sealed tablet PCs.

The sealed F5 is a rugged, highly mobile tablet PC providing electronic clipboard functionality that is the ideal productivity tool for field workers who compute and enter data while standing or walking.

The C5 Mobile Clinical Assistant is a hospital-grade device specifically designed for use by clinicians across healthcare environments. Its rugged, disinfectable design, superior ergonomics and integrated features provide improved productivity while supporting the “five rights” of patient care (right patient, right time, right medication, right dosage, right route).
